

HANNAH JHOY P. ABELLON

I am Hannah Jhoy P. Abellon, 16 years of age, from Cabanatuan City, Nueva Ecija. I am a product of a broken home. I have two brothers from my mother's side and we all have different fathers. My father has his own family with four children. My mother is a vendor, and my father has no permanent job. My siblings and I never grew up together. I grew up under the care of my aunt and her friend. My life is not easy, given that I don't have my biological parents to support me. Therefore, at an early age I already found the value of education. I am very studious. I always try my best not to be absent nor to be late in any of our class. I always ace our examinations and I am involved in many competitions. Thus, on our graduation day in elementary, I was the valedictorian.

One of the Sisters of Mary alumni informed me about the school. It was really my choice and decision to enter this school because I knew that my guardians cannot fully support my education and I also knew that this school gives high quality education. I really love to be here. There are many doors of opportunities. I have joined many curricular activities. I am a Math trainee, chess club member, Rondalla member, campus journalist, helping sister, student teacher, a past Supreme student Government officer and I am now a Commission on Election member. Also, my greatest achievement is that in spite of many responsibilities, since then up to the present, I am the top one of our batch. Since grade 8, I am with high honors. I really love learning. I often do some research on our library. I've read lots of books and I want to read more. Also, my life's motto is "Trust God, believe myself". I always ask Jesus about my decision in life. He is my guide every day. That is also the reason why I have this high level of confidence. I am challenging myself to walk an extra mile in everything I do. I am not afraid of defeats knowing that through them I can improve myself. Therefore, I am very happy to know that I am one of the candidates for ALS-BVF scholarship. I promised myself that I will perform the best I can. And thanks be to God, I am one of the lucky students to have this opportunity!

Indeed, I am very grateful, and I promise that I will not waste all the efforts and hard works of those people behind this scholarship. I have many ambitions in

life and I'm very excited to reach them in the future. Thank you very much. You will always be included in my prayers. Hope that you can help more children like me. May God bless you always.
